Declaration on the Use of Artificial Intelligence

Each student must complete and sign an individual copy.

Student name: Henrique Alves Munhá

Student number: 109431

I declare that all decisions and technical content that I produced for this project are my own work.

The following AI tools were used to assist in the development of the project and the preparation of the report. If no AI tool was used, write 'None'.

Tools used

The only AI tool I used was ChatGPT, Codex

Purpose and extent of use

The tool served the purpose of debugging, helping with syntax of new libraries such as Pandas. And helped to argue/validate my reasoning all code was either done by me or suggested by codex in the chat and then edited into my program files.

I declare that I fully understand the operation of every component of the project, including those developed with the assistance of the AI tools listed above.
